Summary

Skilled Backend & Frontend Developer with expertise in Django, MERN, and Next.js, specializing in building scalable web applications and efficient backend systems. Proficient in HTML, Tailwind CSS, JavaScript, Python, and Java, with expertise in database management (PostgreSQL, MySQL), DSA, and OOP. Experienced in competitive programming, collaborative project management, and problem-solving, with a passion for cutting-edge technologies.

Education

Atish Dipankar University of Science and Technology

B.Sc. [Engr] in Computer Science and Engineering

- Grade: Up to 3rd semester CGPA: 3.57

Dhaka, Bangladesh

January 2024 — Present

Skills

Languages	C, C++, JavaScript, Python, Java, SQL, HTML, CSS
Frameworks	Django, MERN, Next.js, Tailwind, Bootstrap
Database	MySQL, PostgreSQL, MongoDB
Tools	Git, GitHub, Figma, GitBook, Notion, VS Code
Technical Skills	Problem-Solving, Competitive Programming, Data Structure, Algorithms, OOP
Miscellaneous	LaTeX, Microsoft Office, Google (Sheet/Documents/Presentation)
Operating Systems	Windows, Linux(Ubuntu)
Soft Skills	Communication, Collaboration, Adaptability, Leadership, Time management, Flexibility, Decision-Making

Recent Project

Onubhuti – Social Media Platform 🌐

Developed a fully responsive social media platform using Next.js, TypeScript, PostgreSQL, Prisma, Clerk, UploadThing, ShadCN, and Tailwind CSS. The platform allows users to share photos, post statuses, follow/unfollow, receive notifications, and edit their profiles. Integrated secure authentication, image uploads, and dark/light mode support to enhance user experience.

Check out my others projects on **GitHub**, featuring web development, backend systems, and algorithms with technologies like HTML, CSS, JavaScript, C++, Java, Python, Django, and React.

Certifications

Front-end Domination– Sheriyans Coding School

Covered HTML, CSS, JavaScript, GSAP, Locomotive, Scroll Trigger, Shery.js, React.js, Tailwind, Redux, and modern web development principles.

Python (Basic) – HackerRank

Validated foundational Python skills, including data types, control structures, functions, and problem-solving.

Volunteer Experience

Bangachi

Editor-in-Chief and Science Article Writer

Virtual Platform

January 2023 — January 2025

- Lead editorial direction, ensuring content is accurate and engaging.
- Wrote and translated complex scientific concepts into engaging articles.
- Edit and refine books: **Mini Monsters**, **Ei Boita Sci-Fi Er** and **Savarar Sat**.
- Contributed to a popular online science platform, promoting scientific curiosity and accessibility for young learners in Bangladesh.
